Cleaning

Vacuum regularly to remove dust and debris. Wipe with a damp cloth using a mild upholstery soap where required. For more thorough cleaning, a proprietary upholstery shampoo may be used. Professional cleaning is recommended for deeper maintenance. Always test cleaning methods on an inconspicuous area first.

Cleaning

Vacuum regularly to maintain the fabric's appearance. Clean using a damp cloth and mild upholstery cleaner. For more intensive cleaning, use a suitable upholstery shampoo or seek professional cleaning services. Due to the mixed fibre composition, always test cleaning products on a hidden area before use.

Cleaning

Vacuum regularly using an appropriate upholstery attachment to maintain the pile surface. Light marks can be treated with a damp cloth and mild upholstery cleaner. Avoid excessive moisture and aggressive rubbing, as this may affect the pile direction. For deeper cleaning, professional cleaning is recommended. Always test on an inconspicuous area before cleaning
