A BRITISH BRAND SINCE 1976

We are a family owned British furniture company with a name inspired by Scandinavian design. With Frovi, you'll always find innovative, distinctive furniture with signature designs, created through the best of British craftsmanship since 1976.

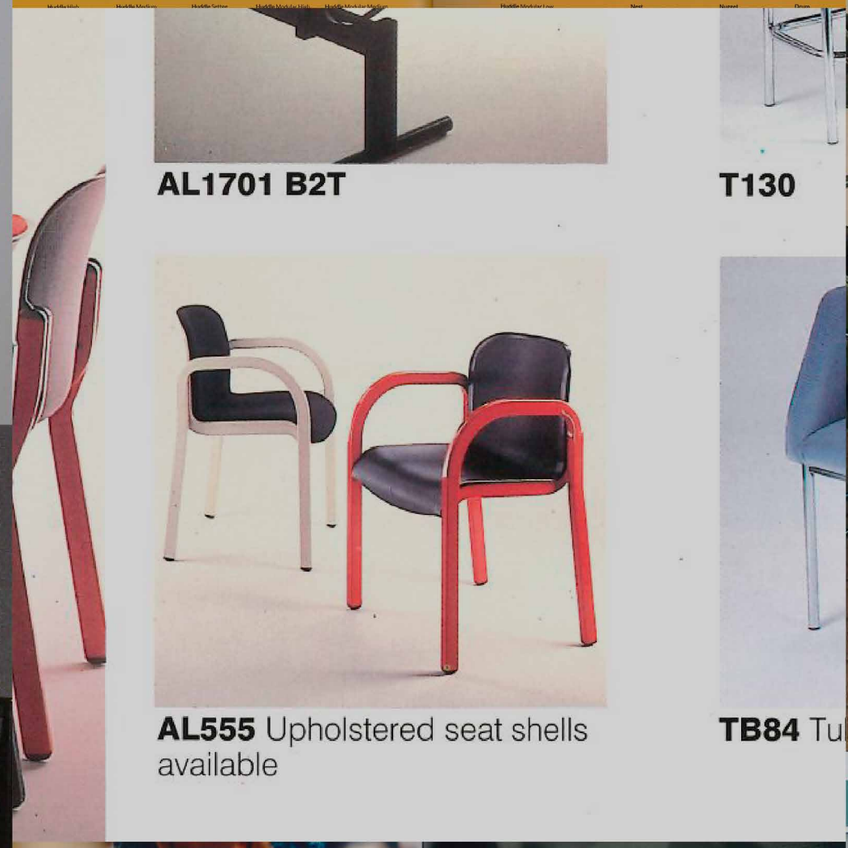

Every care is taken to ensure that all our products are manufactured to a very high standard, so you can be sure that when purchasing a piece of Frovi furniture you are purchasing a quality product.

Our showroom is in the heart of Clerkenwell, London, an exciting space to showcase our latest furniture collection, design trends and interior styles.

Frovi furniture is designed for commercial environments, and you can be confident that every piece will deliver on quality, strength and value, all supported by our 5-year warranty. Whether you are an architect, designer, specifier or furniture dealership, we are confident that we can deliver the right products and services to complement your project.

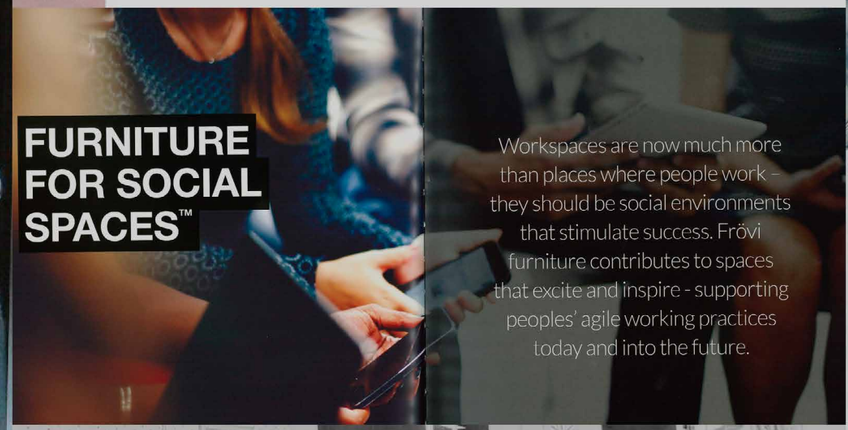

JUMP TO CONTENTS

As a furniture designer, we understand our operations have a far-reaching impact on the environment. This is something as individuals and as a business we take seriously.

We also know that with effort and hard work we can make a positive improvement on the life cycle of our furniture products, reducing waste and pollution through more sustainable material selection and more efficient manufacturing processes.

Frovi is committed to providing sustainable, environmentally responsible products, including manufacturing and material transparency.

SCS INDOOR ADVANTAGE GOLD

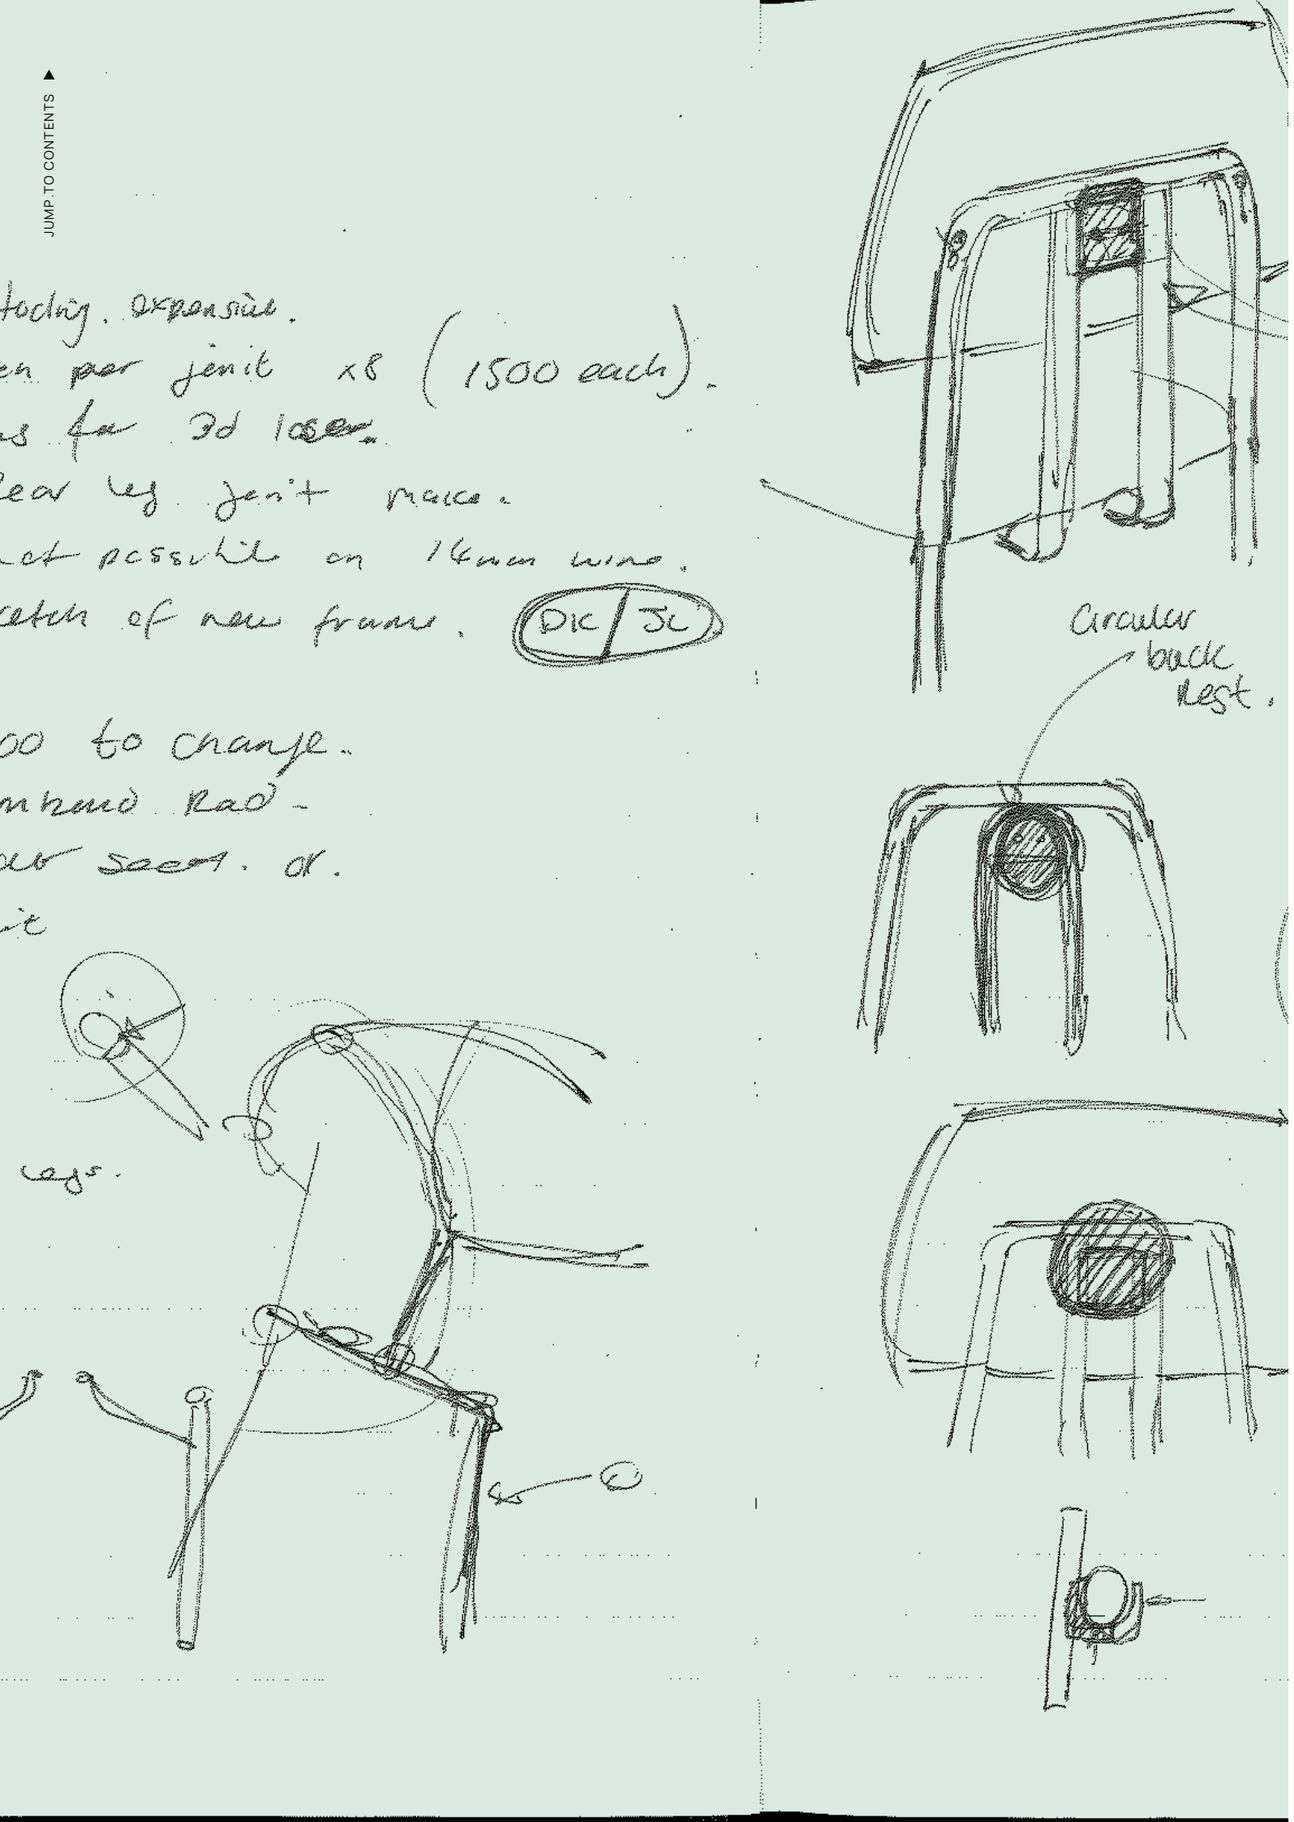

SCS Global Services has issued its Indoor Advantage™ Gold certification for indoor air quality across our entire collection of products. The products have been tested for low Volatile Organic Compound (VOC) emissions

FSC

Frovi is a FSC®-certified company. Forest Stewardship Council® is a global, not-for-profit organisation dedicated to the promotion of responsible forest management worldwide.

ISO ACCREDITATION

Frovi is a registered ISO 9001:2015 and ISO 14001:2015 company. These quality assurance and environmental management accreditations give customers and clients
the peace of mind in all Frovi products.

Behind the scenes

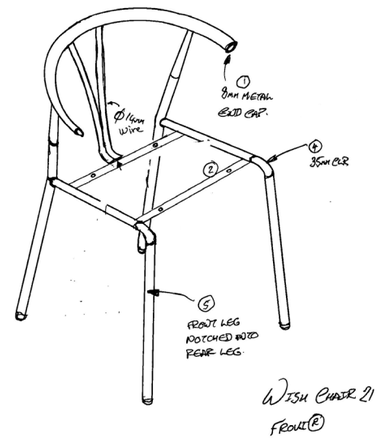

At Frovi we pride ourselves on creating forward thinking innovative products. That is why we have our own in-house designers that consistently exceed convention and deliver new concepts that create ripples throughout the industry. Based in The Cotswold's our designers produce increasingly impressive concepts, with a keen attention to detail and the use of innovative new materials.

Each design reflects the creative philosophy of our designers, with a passionate transition from thought to concept using traditional drawing methods and 3D computer aided design. The initial design is then quickly followed by prototyping and development, then the first commercially available designs make their way to our showroom.

The design process however, never truly ends as the team constantly question how our existing designs can be improved – as you will see throughout this specification guide.

There is something for every project within our new collection, designed to suit differing workspace requirements, installation time frames and budgets.

Explore the endless design possibilities.

Unique Materials & Finishes

At Frovi, our innovative finishes set us apart.

Our focus for sustainable and responsible material sourcing, has resulted in seating made from sustainable cork, tabletops made from recycled fridge freezer plastic, shelving made from recycled steel re-bar and our forward-thinking Bamboo range.

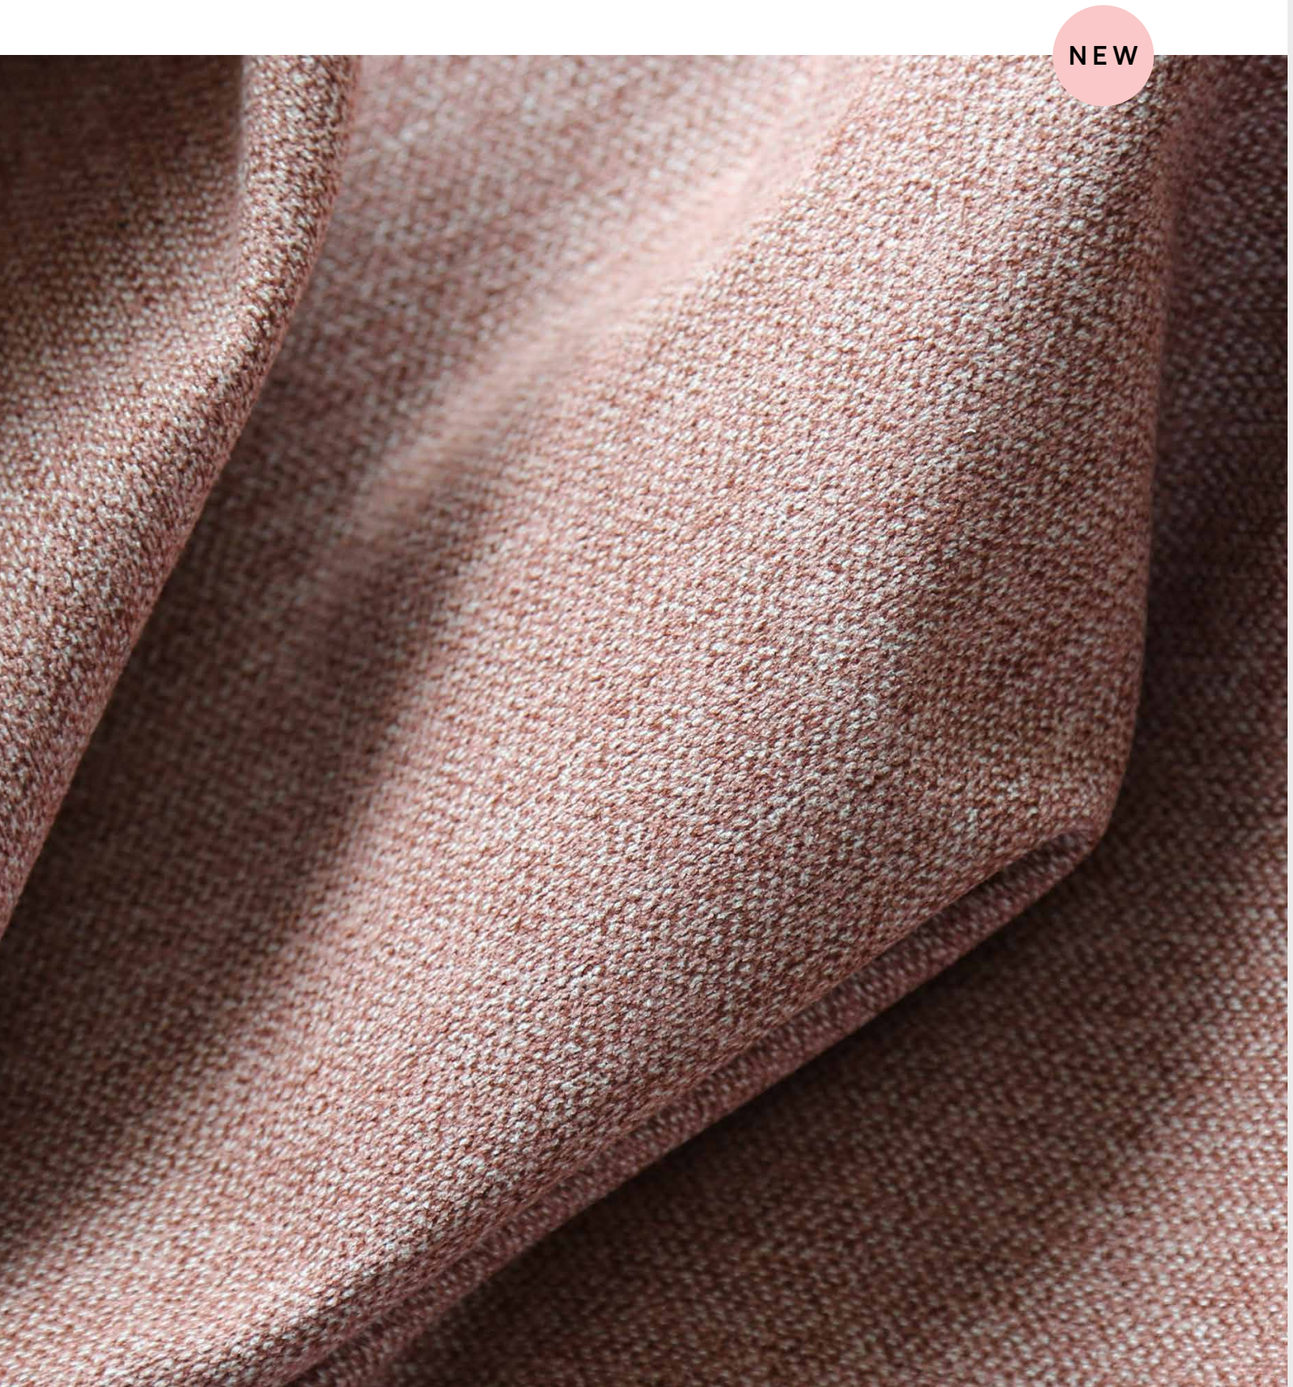

Whether you are looking for a statement piece, or furniture that seamlessly blends into your workspace, with an almost endless catalogue of fabric choices and colour finishes, your chosen Frovi furniture will perfectly complement its environment.

JUMP TO CONTENTS

Frovi Textiles

VIEW PRODUCT ONLINE

Band A Upholstery Collection , A curated collection of contract-grade upholstery fabrics, developed to support specification across the Frovi portfolio. Each fabric is selected to balance durability, compliance, and visual character across workplace and hospitality environments.

Features

Curated collection of weave, boucle and velvet fabrics
All fabrics available in Band A price category
Designed for commercial workplace and hospitality use
Available across the full Frovi product range
Suitable for use on non Frovi furniture

JUMP TO CONTENTS

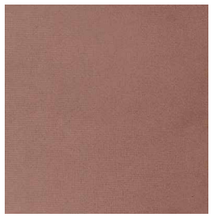

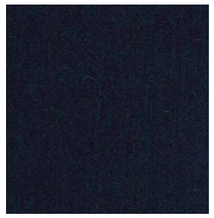

Boucle

Boucle introduces texture and softness, adding warmth and tactility to seating and interior schemes. Its gently looped surface brings a more residential feel into the workplace, supporting the ongoing shift toward comfort driven environments. Despite its rich visual character, the collection remains accessible and practical for high use settings. **p/m**

Velvet

Velvet delivers depth, richness and a more expressive finish within the Frovi Textiles range. Offering a refined surface with strong visual impact, it allows designers to introduce moments of contrast and softness without stepping outside of commercially viable solutions. Carefully balanced to combine character with durability, it brings a more elevated feel to accessible specification. **p/m**

Weave

Clean, versatile and built for everyday application, the weave collection forms the foundation of Frovi Textiles. Carefully selected for durability and broad appeal, it offers a balanced palette that works across workplace, hospitality and commercial interiors. Designed to be easy to specify, it provides a reliable, high performance option for projects where consistency and value are key. **p/m**

Please note that colours shown in this PDF are for guidance only and may vary from the actual fabric. We recommend requesting a physical sample from Frovi before ordering, so you can confirm the colour is right for your scheme.

Bamboo

VIEW PRODUCT ONLINE

We've taken our responsibility for sustainable design and production one step further. Made from recycled ocean plastic, and pressed bamboo our Bamboo range has been designed with our planet in mind. Available in straight and curved shelving options means style meets sustainability. Our curved shelving option is a response to the emerging popularity of a more organic and fluid style of landscape within the workplace and can be used to create spaces alongside curved curtain walls and soft lounge-style seating. Create your own design using our online Bamboo configuration tool.

Features

Bamboo is a carbon negative material and the use of bamboo products can help achieve a higher certification level for LEED and BREEAM

Configurable for any workspace

Easy and quick to assemble, supplied with tools for quick install

100% recycled ocean plastic connectors

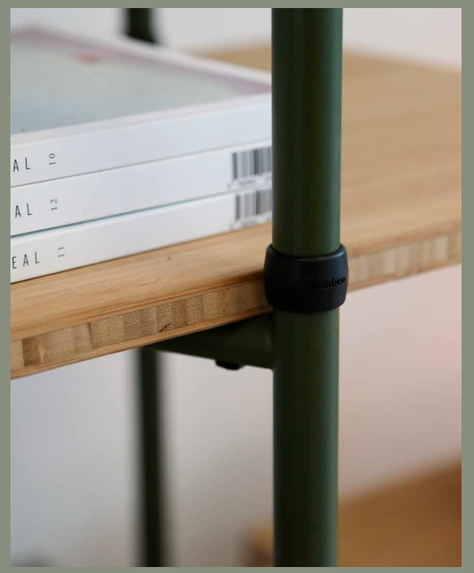

Framework available in any of our RAL colours

All shelves & cupboards made from side-pressed bamboo

Packaging is made from 100% recyclable cardboard, made from 80% recycled material

Treated with a clear lacquer for protection and increase longevity of surfaces

JUMP TO CONTENTS

Bamboo

ENVIRONMENTALLY CONSCIOUS

1/3

Of the water consumption of oak to grow — with a negative carbon footprint

Our Bamboo range is created by an environmentally conscious in-house design team, using the most eco-friendly and low impact materials available. Shelves, cupboards, storage boxes and tabletops in the range are made from bamboo , a material widely recognised as a sustainable hardwood alternative with a negative carbon footprint.

Uses 1/3 the water of oak

Bamboo is one of the least water-intensive crops, requiring no irrigation in most climates.

No pesticides or Chemical Fertilisers

Bamboo grows naturally without chemical inputs, protecting surrounding eco systems and soil health

Fastest growing plant on earth

Bamboo re grows within 1 year of harvest, Some bamboo species grow 1 metre per day

Clean air, 30% more Oxygen

Bamboo releases 30% more oxygen than hardwood's and absorbs 5x more Co2 than most trees

Sustainable buildings : LEED & BREEAM

Bamboo products contribute to a higher LEED, BREEAM and WELL aligned building certifications.

Anti-bacterial

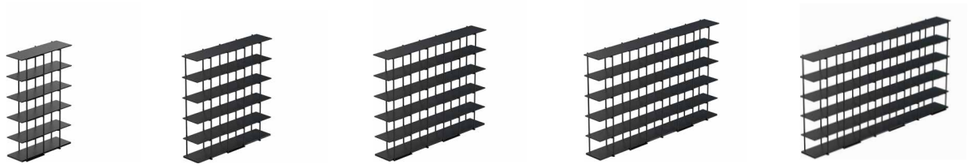

Bamboo natural withstands and kills bacteria, making it one of the most hygienic surface materials.

Relic

VIEW PRODUCT ONLINE

This flexible range is a natural choice for any co-working environment. Choose mobile table variations to create collaborative spaces for agile working and social exchange. A fusion of rustic detail and industrial inspiration, the extensive range of sizes and finishes enables Relic to be used in multiple applications across every scheme.

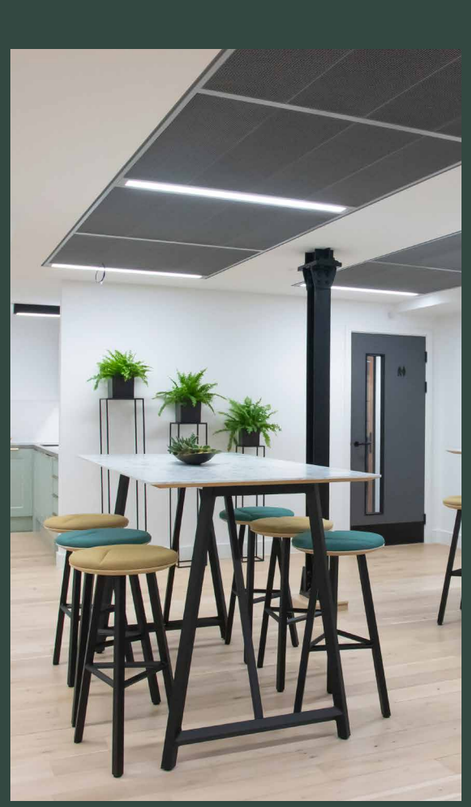

Features

Wide range of sizes and finishes
Power and data port options
Fully integrated cable management
Inset frame allows additional seating at either end
Castors available for mobility
Complementary benches, stools and storage
Fast assembly

STEPS TO SPECIFY

Follow our guide and customize our products to suit your space

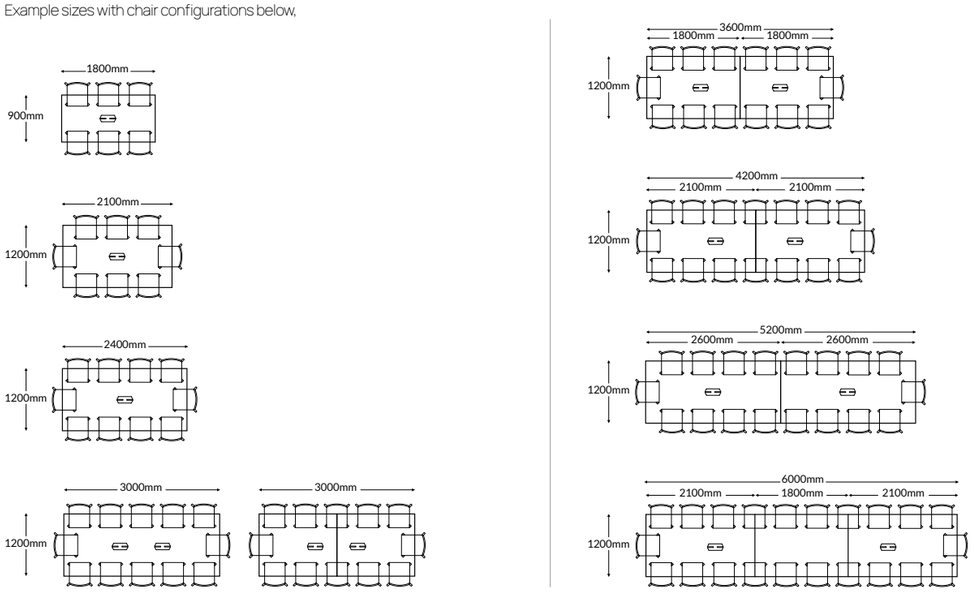

1 2 3 4 5 6

Select Frame: Standard or Poseur, with or without Castors

1 **2** 3 4 5 6

Select Size:
Example sizes with chair configurations below,

Diagrams show a 500mm chair placed around the tables as seating capacity indication only. Capacity can be increased with the use of benches. Tables over 3000 mm are more than one-piece tops, seams as shown below.

1 2 **3** 4 5 6

Select Power: Powered or Non-powered

Relic Tables can be specified with or without integrated power.
Tables with Power are supplied with one or more steel lift-out power flaps that match the selected frame colour. The cable tray and power modules are available in Black only. European power available, please speak to our sales team for more information.

Power tray and module finishes

Black

Standard power configuration for Relic Tables with Power

For power variations, the amount of power cut-outs per table varies depending on the length. Power modules per power cut-out are available with one of the options below.

Table Length	Power Cut-outs
1600mm to 2400mm	1
3000mm to 6300mm	2 - For two or more power cut-outs, please specify each power module.

Option A

4x UK Power & 2x Twin USB Charge (1x Type-C & 1x Type-A USB Charge)

Option B

4x UK Power, 1x Twin USB Charge (1x Type-C & 1x Type-A), 1x CAT6 & 1x HDMI

Relic Cloud

VIEW PRODUCT ONLINE

The original bold design that creates a statement centrepiece for any environment and allows users to collaborate in a semi enclosed environment through the canopy enclosure. As the office landscape has evolved so has the footprint required to collaborate. This has created a need for both smaller individual collaboration surfaces and continuous runs in various table heights. Relic Cloud has been designed as a canvas to enable you to incorporate both biophilia and lighting options.

Features

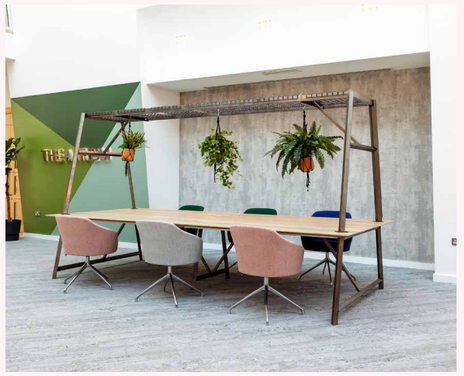

Fully integrated cable management

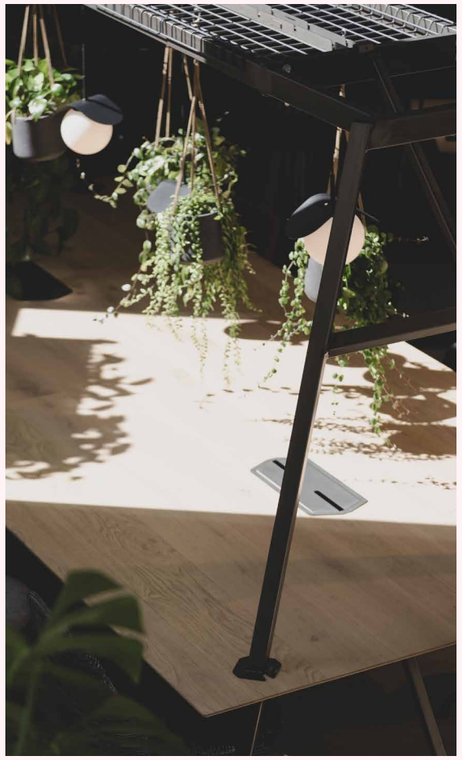

Various sizes of units catering for more compact spaces and large open plan spaces

Power and data options

Mesh hanging trays allow multiple fixing points

Optional cable management lighting pack to work with Peak Light

STEPS TO SPECIFY RELIC CLOUD

Follow our guide and customize our products to suit your space

Sail Sofa High

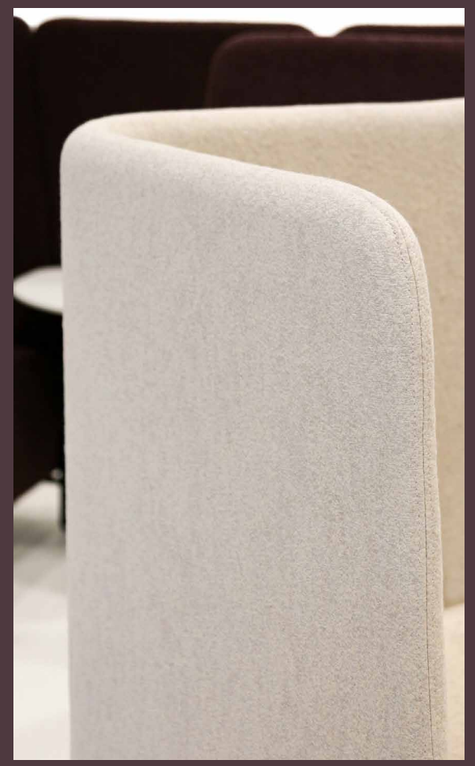

VIEW PRODUCT ONLINE

The Sail booth system addresses privacy for commercial office interiors, by providing a segregated space to collaborate, learn, focus, or relax. It's a refined seating system that allows flexibility and consolidation of workspace in a given area to escape without the need for partitioning or division, promoting collaboration, creativity, and deep concentrative thinking. The ergonomically designed booth has exemplary comfort levels.

Features

Work independently in comfort
Elegant organic profile to suit interior design schemes
Generous proportions
Soft, sleek design with curved corners
High-back enhances privacy and acoustics

Bae

VIEW PRODUCT ONLINE

Bae is an organic shaped seating system with a skeletal timber form that allows endless sweeping configurations that can be easily linked together but allows separate conversational islands.
The material used in the design is sustainable and the product can easily be de constructed for recycling, minimising the impact on the environment.

Features

Enveloping relaxed comfort

Four units for endless composition freedom

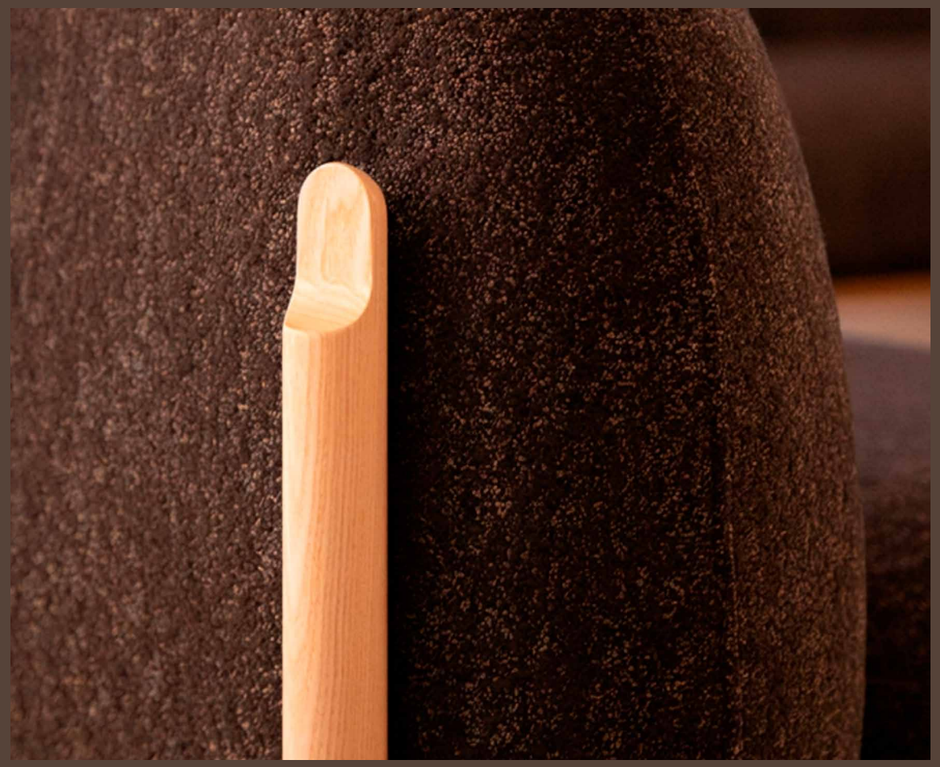

Soft organic shapes that allow a chain of united environments with functional divisional surface

Simple assembly and configuration

Sustainable materials - side pressed bamboo baseboard

Designed for deconstruction at end of life

Easy construction

Puffa

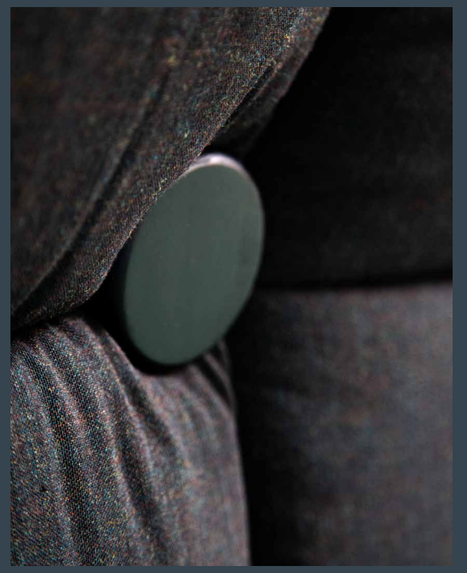

VIEW PRODUCT ONLINE

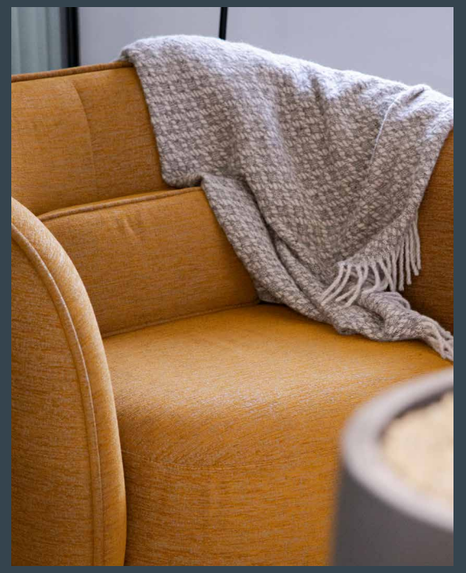

Puffa was born from fusing a long-standing fashion style with a functional piece of furniture. We've translated the feeling of warmth, cosiness, and comfort you get from puffa jackets into an armchair that could be experienced and enjoyed in multiple applications easily adapting to its environment. We refined and improved the design through prototyping, resulting in a low-carbon footprint armchair that features a large, flexible quilted hood which takes inspiration from the popular trend of wrapping ourselves in quilted textiles for comfort and warmth, whilst providing a safe breathing space away from the noise and distractions of modern life.

Features

Adaptive quilted hood
Adjustable Lumbar Cushion
Footstool
Chunky pipe detailing

STEPS TO SPECIFY

Follow our guide and customize our products to suit your space

1 2 3

Select Height: Select with or without hood

1 2 3

Alto

VIEW PRODUCT ONLINE

Made of deeply cushioned units for maximum comfort, the Alto sofa design was inspired by a desire to blend softened comfort with inviting pillowed forms. Its plush cushions and rounded edges create a welcoming aesthetic. The choice of soft, durable fabrics enhances both the tactile and visual appeal, making it a perfect balance between relaxation and sophistication.

Features

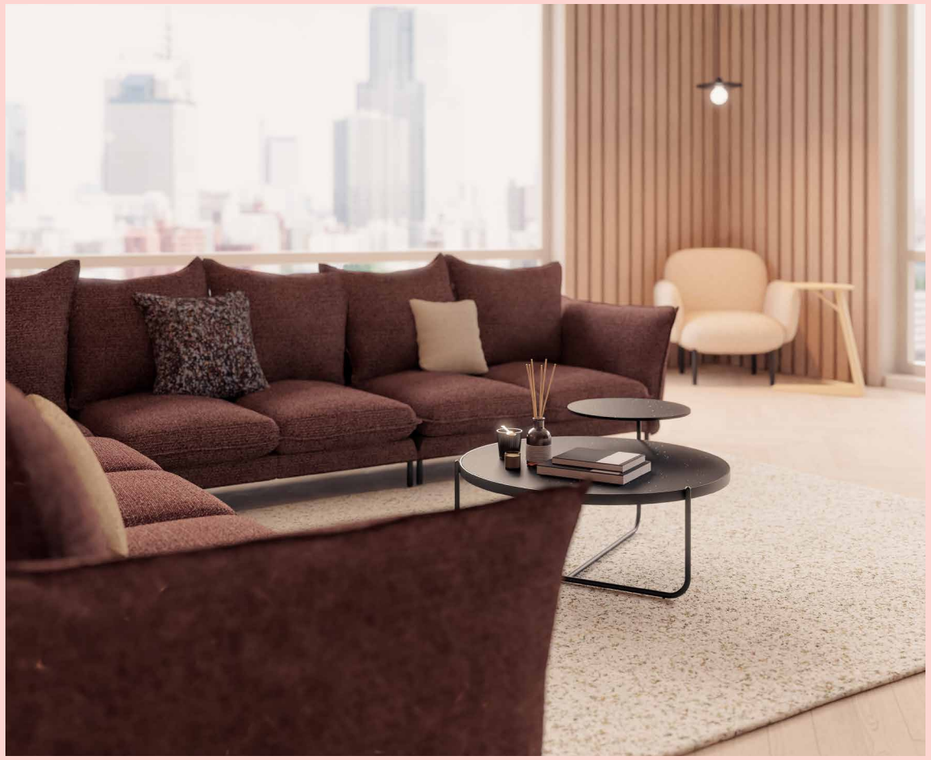

Choose from the single, double or three seater sofa or from seven modular units for unique combinations

Black metal feet

Mello

VIEW PRODUCT ONLINE

In today's ever-evolving workplace, the demand for environments that balance connection with concentration has never been greater. As open plan spaces thrive, so too does the need for moments of privacy, focus, and calm. We are seeking spaces that support our wellbeing, enabling deeper thinking. Mello provides an acoustically secure, psychologically safe space where users can disconnect from the buzz of the office and reconnect with their best thinking. The minimalist glass door ensures transparency while reducing sound, offering a calm oasis without creating barriers.

Sail Booth - High

VIEW PRODUCT ONLINE

The Sail booth system addresses privacy for commercial office interiors, by providing a segregated space to collaborate, learn, focus, or relax. It's a refined seating system that allows flexibility and consolidation of workspace in a given area to escape without the need for partitioning or division, promoting collaboration, creativity, and deep concentrative thinking. The ergonomically designed booth has exemplary comfort levels.

Features

Suitable for collaborative or independent working
Elegant organic profile to suit most schemes
Generous proportions for various number of users
Laptop holder to make presenting easy

Sail Booth - Low

VIEW PRODUCT ONLINE

With a lower back profile, the Sail Low Booth maintains the soft, sculptural form and welcoming appeal enjoyed from its predecessors. The low back sides allow for partial privacy for team discussions, informal meetings, or social interactions, perfect for agile offices, co-working spaces, and social zones, that are designed to enhance visibility and openness whilst still encouraging collaboration and social interactions.

Features

- Suitable for collaborative or independent working
- Single, two, and three seater options
- Elegant organic profile to suit contemporary design schemes
- Generous proportions for various number of users
- Laptop holder to make presenting easy
- Soft, sleek, design with curved corners
- Optional side cushions that are affixed into place

Peggy Laptop Table

VIEW PRODUCT ONLINE

The perfect addition to your flexible and agile working space, Peggy is a refined and functional laptop table made from solid ash. Designed to complement any soft seating range, its sleek and minimalist design allows for easy integration into any environment, while its sturdy construction ensures durability and reliability. Whether you're working from home or in a shared workspace, the ergonomic tabletop allows for comfort whilst working on your laptop.

Features

The slightly exaggerated stem angle gives more reach to the user and provides stability

The under table cross piece feature is celebrated rather than trying to give an anti-gravity look. The unique tabletop shape allows user to use the table front on or side on comfortably Small shadow gap underneath the legs

PLEASE NOTE: Leather is a natural material and will crease and 'puddle' with use.

Due to current supply shortages and increased leadtimes. please check fabric stock availability with the supplier before placing order. See individual range pages for optional two-tone fabric and contrast stitching availability.
Note: Not all the fabrics listed above are suitable for all Frövi products. Please ensure when selecting a fabric that it is suitable for the specific furniture item. Frövi reserves the right to decline to use any fabric which it deems unsuitable for a particular furniture product. Many fabrics are tested to BS 7176:2007 Medium Hazard (Crib 5) but this is not universal. **If in doubt please contact Frövi sales office for confirmation. Call +44 (0) 1608 652411.**

Information

Frovi is a UK brand, sold through distributors throughout the UK and beyond.

IMPACT ON THE ENVIRONMENT

We believe that environmental and ethical values should lie at the core of our vision for the future. Protecting the environment is paramount for both us and future generations. Every product we produce has an environmental impact but at Frovi we are constantly striving to reduce the impact of this as far as possible. To attain these goals we constantly review best practice to ensure your Frovi product is produced to the highest standard of sustainability. These goals include resource and waste management to reduce our carbon footprint through reduction of energy consumption, recycling and minimising our waste to landfill.

ISO

Frovi is a registered ISO 9001:2015 and ISO 14001:2015 company.

FSC®

Forest Stewardship Council® (FSC®) is a global, not-for-profit organisation dedicated to the promotion of responsible forest management worldwide.

FSC has developed a unique system of forest certification and product labelling, helping consumers identify timber and products from responsibly managed forests. FSC's system is backed by a range of environmental and social organisations, major companies and trade unions.

More FSC products mean that more FSC certified forests are being managed for the long-term well-being of people and the planet.

FSC runs a global forest certification system with two key components: Forest Management & Chain of Custody.

This system allows consumers to identify, purchase and use wood, paper and other forest products produced from well-managed forests, recycled materials and other controlled sources. Rigorous controls ensure that timber from these FSC certified sources can be verified along the FSC chain of custody before it reaches the consumer.

Further details about our FSC® certified products are available on request.

Note: For Chain of Custody certification to be achieved it must be requested at time of order.

Frovi is a FSC®-certified company. Certification Registration Code: SA-COC-005644. Licence Code: FSC® C134751

QUALITY, STANDARDS AND TESTING

Quality is vital in all Frovi products. Frovi is committed to ever increasing product quality. Regular quality control checks coupled with ongoing rigorous research and development keeps Frovi at the forefront of the industry. Many Frovi products are tested to international standard (ISO, BSEN) at recognised test facilities, such as FIRA, SATRA and CATAS, thus giving our customers peace of mind that the product they are purchasing has been rigorously tested in laboratory conditions to ensure its safety and suitability for use in the contract environment.

Certificates, where relevant, are available on request.

DESIGN REGISTRATION

All Frovi designed products are registered with the Intellectual Property Office. This Government registration is in place to prevent people copying or stealing our designs. The design registration covers the look of Frovi designs including the appearance, physical shape, configuration (or how different parts of a design are arranged together) and decoration.

By registering our designs, Frovi is protected against anyone copying them and we have the right to prevent others using our designs for up to 25 years. Frovi can take legal action against any design infringement and/or design copying.

Further details and registration number are available on request.

SCS INDOOR ADVANTAGE GOLD

All Frovi products are certified SCS Indoor Advantage Gold meaning that we meet the most stringent and internationally accepted standards for Indoor Air Quality. This ensures that no harmful pollutants are released into the air when using our products and further demonstrates our commitment to an environment that is safe, healthy, and sustainable. All relevant product testing certificates are available upon request.

POWDER COATING

Frovi powder coating has had a full LCA (Life Cycle Analysis) conducted upon it. The reason for conducting this analysis is to provide a transparent, accurate and third party accredited breakdown of the environmental impact of the product.

The reason we've adopted this strategy is part of our commitment to ensure our products have sustainability designed into them from the ground up. Our process provides many sustainability benefits compared to other powder coating methods, including reduced energy usage and reduced waste generation.

Our specially designed powder coatings can be cured at lower oven temperatures making them suitable for a variety of substrates. This leads to reduced energy usage and a lower carbon footprint. It is a hard-wearing coating for exterior architecture and furniture. This cures in 12 minutes at 170 degrees.

Frovi powder coating meets the tough weathering requirements of leading industry specifications such as; Qualicoat class 2, GSB Master, AAMA2604, BS EN 12206, and matches the mechanical performance advantages (flexibility) of Qualicoat class 1 standard durable systems.

Information

5 YEAR WARRANTY

All FROVI product frames including cable management channels carry a five-year structural warranty. Frame finishing and solid wood products carry a two-year warranty, this includes all outdoor products. Power components, castors, lighting, swivel/ height adjustable table, chair mechanisms and bespoke products carry a 12 month warranty.

Any damage caused by accident, misuse, abuse, neglect and standard wear & tear, is not covered by this warranty. Any issues arising from the defective and/or incorrect assembly of Frovi products where the furniture was supplied but not assembled by Frovi trained fitters will not be deemed as warrantable and therefore will be chargeable in full.

Frovi reserves the right to decide whether to repair and/or replace any product/s that are deemed to be covered by their warranty and the decision by Frovi is final.

Regular care and maintenance of all furniture items by the customer is an essential condition of the Frovi warranty. It should be noted that all screws, nuts, bolts etc. must be checked on a regular basis. Damage, fracture or other failure of Frovi furniture due to lack of maintenance is not warrantable and will be charged according to Frovi Terms & Conditions of Sale.

A full detailed copy of the Frovi Terms & Conditions of Sale are available on our website at www.frovi.co.uk/terms-conditions/

WOOD SEATING & TABLES

Frovi cannot guarantee an exact match of any wood items, and any variation in colour, texture or grain is not considered a defect due to the natural nature of the product. Matching of colours between different batches is also not guaranteed, as wood finishes will age with time and exposure to sun light. Wooden furniture is exclusively designed for indoor use and should not be exposed to increased humidity.

Frovi cannot guarantee pattern-matching on table tops of 2 pieces or more, made from wood-grain effect or patterned laminates due to limitations on laminate sheet sizes.
Each table top section is manufactured from individual sheets of laminate, which can vary in colour, blemishes and other inconsistencies.

Application for the copyright owner's permission to reproduce any part of this publication should be addressed to Frovi.
Where colour and finish samples are shown within this document limitations in the reprographics process mean absolute colour accuracy cannot be guaranteed. Where colour matching is critical, a sample of the material can be provided on request.
Frovi reserves the right to alter specification and designs without prior notice.
All prices exclude VAT. E&OE.
