ISLE

✳NEW✳

Isle was developed as a response to the need for a softer more domestic feel to modern-day commercial furniture and designed as a true expression of simplicity in form. Using a minimalistic approach to materials and design we have created a statement table system that has an honest, playful character with concealed functionality for everyday use. A single natural material is used throughout Isle's silhouette bringing a softness to the surrounding space. Rounded ends promote inclusivity and social interaction, and the texture from the timber can help create a calm and tranquil atmosphere. Isle approaches function in a way that is true to itself with aesthetic benefits like cable management and below-surface power seamlessly hidden away from plain sight.

FEATURES
